LOOTING OF BOND FUNDS STARTED

Auditor Abetted by Council in Efforts to Cover Up Excessive Expenditures.

FERNSTROM'S WARNING

TRACTION FRANCHISE GOES TO COMMITTEE OF WHOLE.

Because there is real money in the bond fund authorized by the administration of Mayor Richard P. Morris and because there is nothing but "overdrafts" in all the other city funds, an effort is being made to pay all the debts possible with this real money by financial juggling, an instance of which cropped out in the council last evening. A communication was received from Rudolph Alff, city auditor, declaring that some \$3.500 had en spent in changing water mains along A and B streets from 3 to 6-inch pipes. This, it appears, was charged to the "water works fund," which is now considerably overdrawn. The auditor in his letter said he could see no reason why the "water works" fund should be made to stand any more burden than it is now bearing and wanted authority to transfer the \$3,500 from the "water bond" fund the \$3,500 from the "water bond" fund, where the real money is, to the "water works" fund in order to wipe out this ftem. The council granted the permis-

At present the auditor is working over At present the auditor is working over-time in his efforts to pick out similar items charged to funds now overdrawn which the council can be induced to charge up against the funds with real money in them. It is hoped that in this manner the apparent overdraft in the expense fund can be considerably reduced at the expense of the bond funds.

Inspectors Are Retained.

Another instance of the financial embarrassment of the city developed when Councilman Fernstrom attacked the ef-fort of the health commissioner to have two sanitary inspectors continued in of-fice thirty days longer. Fernstrom said fice thirty days longer. Fernstrom said that the city is now running behind over its receipts about \$20,000 a month and that the most prudent management must be exercised in order to prevent a financial catastrophe. His speech availed nothing, for the "Americans" voted to continue these men in office until after election. A communication was received from the auditor stating that he could not pay the refund of \$26 ordered by the council last week to William Murphy, Murphy rethe refund of \$26 ordered by the council last week to William Murphy. Murphy resides on one of the many uncompleted sidewalk extensions and wanted the money back he paid in over a year ago. The reason assigned by the auditor is the failure of the engineer to report on the amount of the city's portion of the estimated cost of any of these extensions.

Franchise Goes to Committee.

the company to run its line on Second South from Tenth East to Eleventh East and thence south on Eleventh East instead of at present on Tenth East from Second to Fifth South and thence east on Fifth South to Eleventh East. The people say that the present tracks on Tenth East are objectionable and that the steep grade necessary at Fifth South is dangerous. They all favor the corpany's plan which the council rejected.

Sidewalk extension No. 127 was approved, there not being sufficient objection to its construction. The cost will be \$26,348.37, and the district is bounded by South Temple, Second East, Fourth South South Temple, Second East, Fourth South and First West streets.

On being questioned about her disappearance, the girl told a story which implicated Andrus. The latter was taken into custody yesterday morning by Policemen Carlson, Golding and Taylor.

Andrus denies that he has done anything wrong.

MAKING IMPROVEMENTS.

Poplar Grove League Satisfied With

An enthusiastic and largely attended meeting of the Poplar Grove Improvement league was held last evening to discuss matters relating to the municipal affairs of the fifteenth district. The committees on sidewalks, irrigation and drainage reported exceptional progress. The league adopted a resolution thanking the street car company for shortening its schedule and giving a fifteen-minute service. A committee will wait on the street department today in regard to the report that the sidewalk extension is to be stopped at Eighth West and Eighth South. leaving three blocks of the contracted improvements not completed. The original plan is to extend the improvement to

Councilman Barnes is a grocer and he brought with him a large number of his bills for supplies for 1906 and 1907 and showed to the jury the difference in the cost of various commodities then and now. The jury questioned him closely and seemed deeply interested in is statements.

Sam Warburton, another grocer, was called during the afternoon, and he was asked to explain the present high prices. He also showed that groceries and all food products cost the grocers more this year than they did last. Both Barnes and Warburton were also asked regarding the combine for the maintenance of prices existing among the grocers and butchers of the city and fostered by their

The completion of the Las Vegas & Christman, vice president of the Jefferson Gold Mining company, died at the mine, in Cottonwood canyon, yesterday morning of tuberculosis. It appears that Mrs. Christman, whose home is in Chicago, came west about three months ago for the benefit of her health. She came directly to the Jefferson mine, where, it was hoped, the pure mountain air would prove beneficial. At first her condition showed marked improvement. A relapse took place and gradually the decline followed, until yesterday morning, when she died. Her body was taken to the Bankz' undertaking establishment at Murray, where it is being prepared for shipment east Tuesday.

Mr. Christmar, has been west for four years. He will accompany the body of his wife east. Mrs. Christman leaves three small children.
